# Homework: Flexbox

## Replicati layout-ul:

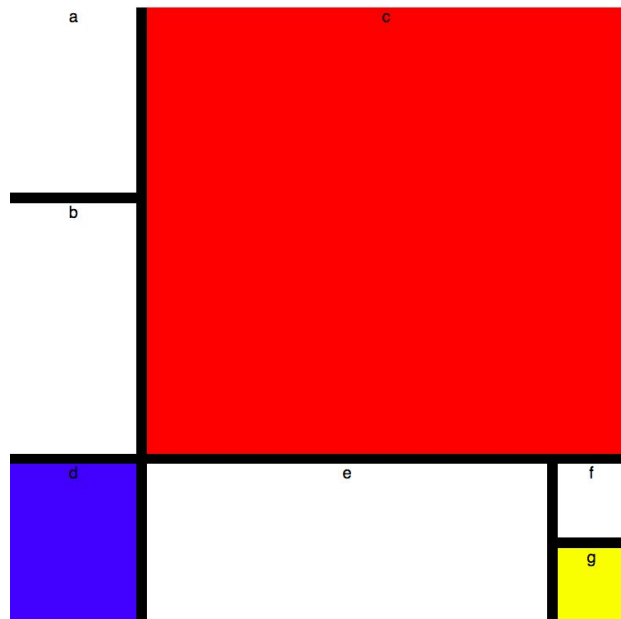

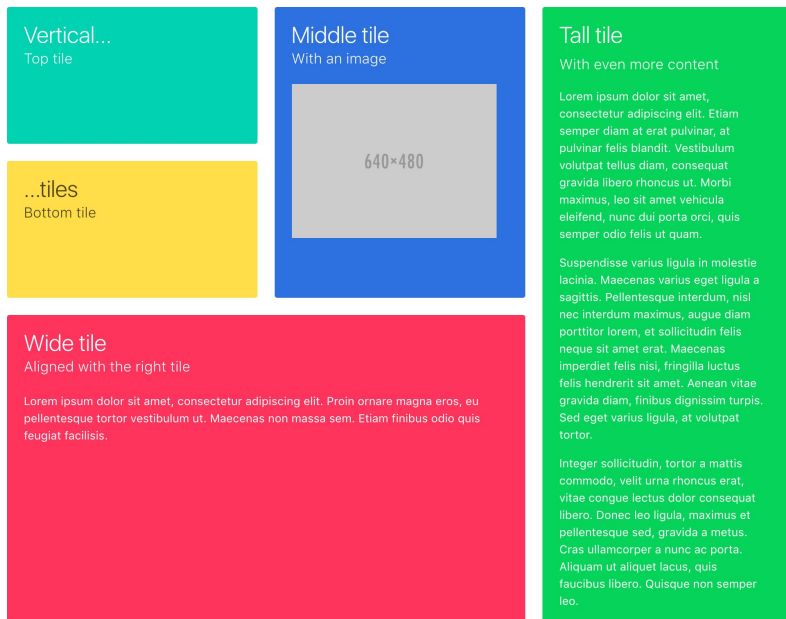

# Grid game

<https://cssgridgarden.com/>

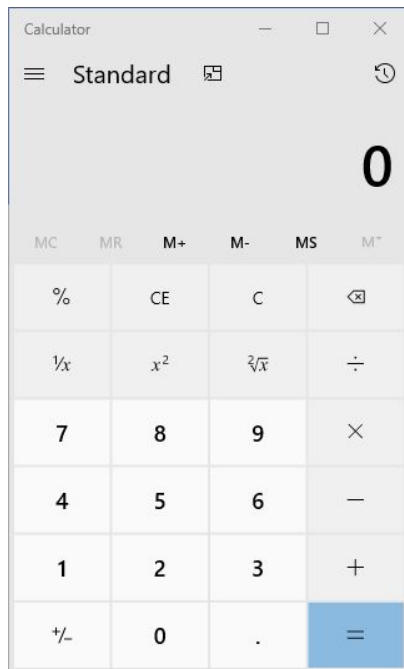

# Practice – Grid

- folosind grid, creati layout-ul din stanga
- modificati sandboxul <http://bit.do/grid-ex> astfel incat sa arate ca layout-ul din dreapta. Gridul are o dimensiune de 10 x 10, fara valori fixe pentru elemente.

# Practice – Grid

- folosind **grid** creati layoutul pentru un calculator (puteti incepe cu cel standard, apoi treceti la cel scientific)
- adaugati stiluri diferite cand facem hover peste butoane

# Homework – Grid

- folosind grid, creati urmatorul layout
- adaugati scroll la sectiunea *Recently added* din stanga
